

System uPDT

ULTIMATE PERSONAL DEVELOPMENT TOOL: ZPDT AND ZD&T

Business
Partner

*The versatile, customizable, and
user-friendly solution for IBM Z*

Versatile

- Highly configurable laptop, desktide, and rackmount configurations
- Supports development, testing, debugging, and training for Z applications
- Connects to internal and external storage
- Supports all IBM Z operating environments*
- Advanced configuration options available (basic Sysplex, Parallel Sysplex, CICSplex, IMSplex)

Customizable

- Ready-to-run solution, out of the box with your fully customized solution operating
- Optional complete migration services
- Most systems ship with 1-3 CP licenses active
- Capacity Upgrade on Demand available
- Free licenses available for IFL, zIIP, and zAAP

User-friendly

- Full graphical user interface
- Includes ITC desktop, tools, utilities, and ITC CallHome™ feature
- Full solution can include services like migration installation, migration integration, and migration training
- Full help desk and technical support, hardware warranty, and 24x7 field maintenance
- Significant RAS features including dual power, dual environment, and remote diagnostic support
- Full support for attachment of IBM 3592 fiber attached tape drives for legacy data exchange, backup, and storage
- Easy-Update™ for Linux, zPDT/zD&T, and ITC utilities

* All currently supported versions of IBM operating systems that can run on a IBM Z and for which you have valid licenses that are transferrable to the uPDT within the geography in which your uPDT will be operating, subject to terms and conditions.

WHICH READY-TO-RUN , PRE-CONFIGURED APPLICATION IS RIGHT FOR YOU?

Laptop

This portable and easy-to-secure option has 1-3 IBM Z CP capability and is great for demo use, trade shows, small development, etc.

Tower

This option has 1-8 IBM Z CP capability and is excellent in departmental development environments.

Rackmount

This option has 1-8 IBM Z CP capability and is data center ready as a large project workhorse.

	Laptop	Tower	Rackmount

External IBM 3592 tape storage options		✓	✓
Full enterprise RAS features		✓	✓
Remote license server available with zKey appliance	✓	✓	✓
Integrated LTO tape for archival storage and D/R		✓	✓
External LTO tape option for archival storage and D/R		✓	✓

Why ITC?

Founded in 1993, ITC is the solution leader for IBM Z emulation.

ITC has spent decades developing a rich set of standards and practices specific to implementing Z emulation for development and testing.

This includes our impressive lab facility that includes multiple Z mainframes, Z emulation servers, and an extensive selection of Z peripherals for customer demos, testing, and performance modeling.

As a dedicated IBM Business Partner, ITC is the only vendor delivering a complete solution.

As recognized experts in mainframe security auditing, ITC also brings a significant level of skill and quality to all Z devops projects by building in the necessary controls and protections that all customers require.

ITC offices are located in the US, UK, and Germany. ITC has an export license and can ship worldwide.
